

## Old Bridge Tuesday Retirement Softball League Minutes for March 11, 2019

1. No next meeting has been scheduled.
2. Rule 1 has been completely replaced by the following:

If one team has 9 players (the short team) and the opposing team has 12 or more players (the long team), the long team must choose one player who must be accepted by the short team and this player will play as a regular player for the short team for the duration of that game alone. If one team has 10 players or 8 (or less) players, at the discretion and agreement of both managers, one or more players can be borrowed for that one game only. By agreement, both managers may also agree to allow a catcher (for the duration of that game only) to be borrowed for defensive purposes only as long as that player is not currently a batter or a runner.
3. The automatic single rule will be re-interpreted to be a **ball centric rule**. This rule completely replaces the current Rule 7. The rule was changed again from the Feb. 2, 2019 meeting by changing the words 'defensive player' to 'non-outfield player':

**Except for flyouts**, whenever a batted ball hits the ground in the outfield grass before touching any **non-outfield** player (including such player's glove, uniform, or hat), the batter-runner will be automatically awarded first base and therefore can not be forced out at first base.

Notes:

  1. This rule does not effect any runner going to 2<sup>nd</sup>, 3<sup>rd</sup> or home.
  2. It does not matter where any defensive player is situated in the field either before or after the ball is batted.
  3. The same rules for catching a fly ball will apply in determining whether the ball hits the ground in the outfield.
  4. **A middle infielder is not an outfielder.**
4. The following 13 players will be considered for drafting/trading by the Patriots and Mac Fin.
